

Screw it, Let's Do It

ARYAN TECHNOLOGIES

(Total Tooling Solution)

Products

- BIW Design Services
- BIW FIXTURES
- Checking Fixtures (Panel Checkers)
- Industrial Trolleys & Automation.

Introduction

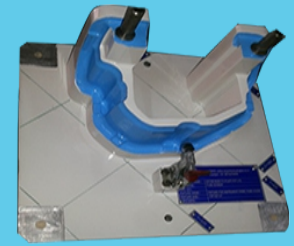

- Aryan Technologies established in 2011.
- We at Aryan technologies shall maximize customer satisfaction by delivering quality products on time. We shall continuously improve in our business process and quality management system.
- Our speciality is relation Gauges & Checking Fixtures with high accuracy. Our special emphasis is on quality control so as to ensure that the systems perform trouble free and efficiently over their entire life and at the same time is cost effective.

Resources

- Testing facilities are equipped with Metrological Instruments
- Design Facilities using CAD Software's like CATIA V5R24, FIDES
- Have a wide and diverse range of products to meet Critical needs of both the automotive as well as engineering industries. Our design and development division are fully geared and equipped to analyze client's drawing and needs on product development and our production team can produce the necessary components/products to meet exact specifications.

Fitment & Flush checking Fixture for Cover

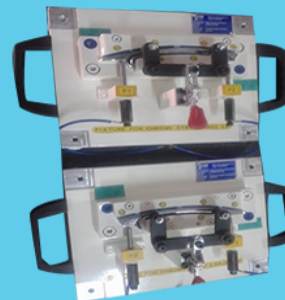

Checking Fixture for Fuse Box

Fixture For Bezelbrand Center For U401

Fixture for Cover Wiper Bracket For U321

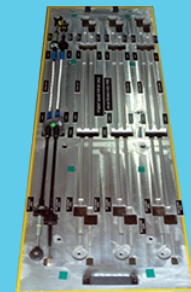

Checking Fixture for Chrome Strip

Cooling Fixture

Checking Fixture for Dust Cover

Cable Assembly Checking Fixture

Industries, We Serve

- Automotive
- Aerospace
- Heavy/Industrial Engineering

Our Business Model

- Turnkey Project Execution
- Service provider in CAD-BIW Design

Our Services

- Manufacturing Engg
- Computer Aided Engg

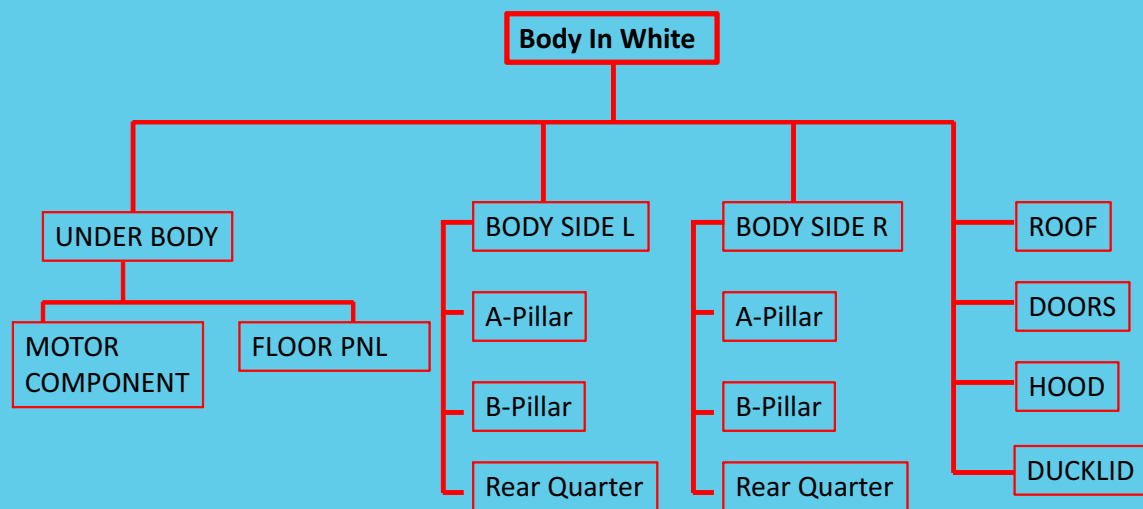

Vision / Mission

Aryan Technologies is founded with a vision to provide competitive engineering solution. Our mission is to impact quality, reliable, accountable, and timely solution to the clients, with excellence to add value and help them achieve their business goals.

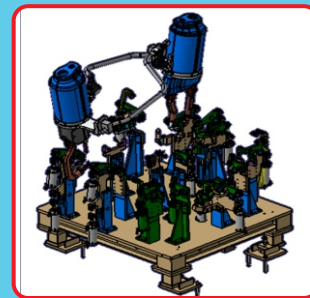

🕒 BIW DESIGN SERVICES:

At Aryan Technologies, we provide following Design services in BIW welding fixture Domain

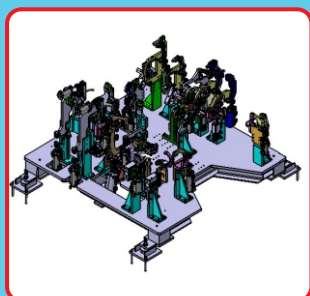

- Design centre in BIW domain, provides 3D design & 2D drafting services for BIW welding fixtures & checking fixtures.
- Process planning for BIW panels (PLP plan, Gun study, Ergonomic study, Cycle time study etc).
- Documentation Work (Spot plan, Panel built up sheet, Cycle time study etc)
- Deputation of Engineers at Customer end on payroll of Aryan Technologies.

◎ CMM Facility

Testing Facilities equipped with Metrological Instruments.

CMM Machine Type

Model : FARO EDGE

Inspection range : 2.9 Mtr

Type : Portable & Movable

Software used : Dell CAM

Giving services as a service firm Pride Engineers (JV)

◎ Services

- We believe in provide quality and timely service in order to satisfy our customers.
- Our competence has helped us to introduce innovative procedures like monitoring history of the equipment and providing performance summary. and uptime percentage to the clients.
- We follow a well prepared check list for preventive maintenance. We strictly process the service report and carry out the follow up carefully.
- All these have results in enhancing the quality of our services.
